Microbiotic with a concentration of **100 billion** live and active bacteria **per sachet** to:

Maintain the balance of the intestinal flora.

Fight against the natural decline of intestinal bacteria.

Restore the intestinal barrier.

Agimixx® contains **Slab51®** a combination of 8 specific bacterial strains.

Allergen Free.

8 registered strains

The 8 Agimixx® strains are identified and registered at the DSMZ Institute in Germany:

- *Streptococcus thermophilus* DSM 32245: 40 billion

- 5 lactobacillus: 35 billion

L. acidophilus DSM 32241,

L. helveticus DSM 32242,

L. paracasei DSM 32243,

L. plantarum DSM 32244,

L. brevis DSM 27961

- 2 bifidobacteria: 25 billion

B. lactis DSM 32246,

B. lactis DSM 32247

Recommended daily intake

The recommended daily intake is 1 to 2 sachets. It is recommended to take AgiMixx just before bedtime.

The improvement can already be felt after a few days, the optimal colonization is achieved in 2-3 weeks.

Bloating can occur, this is a transient phenomenon due to the adaptation of your flora to the new bacteria.

How to take Agimixx®

Open the sachet and stir the contents into 100 ml of cold non-carbonated drink, yogurt or applesauce and ingest immediately.

Keep Agimixx® in the refrigerator (+2-8°C).

The product can stay up to one week out of the refrigerator (<25°C).

Agimixx® box of 30 sachets

Forest fruits flavour

Net weight 45g (30 x 1,5g per sachet)
